### Keys to a Winning Campaign Ad Strategy

#### Audience Targeting

*"Spray & Pray" isn't a media purchasing strategy. Put your message in front of the audiences you want.*

#### Advanced Data Capabilities

*Buying impressions alone doesn't necessarily mean you are buying the right impressions. Influence the best audience for your message.*

#### Cross Channel Ad Delivery

*Voters are consuming information across many screens. Target the audience, not the device or channel.*

### Campaigning as a Science

Audience Intelligence from Comcast Spotlight combines rich consumer insights and household-level ad exposure data in the local TV marketplace. We then utilize that data to identify those networks and dayparts that deliver your optimal audience delivery.
